Purchase Authorization: Who is Authorized to Order?

Describe Usage or Application: Please provide a brief summary and any details you feel are necessary including options considered, budget, parties involved, relationship to the project, time frame for the project, type of pollution, contaminants, hydrocarbons, testing results, project details such as area, percentage of contamination, etc. All information is totally confidential and will not ever be shared in any fashion without consent of the provider.

Testing: Have you conducted any testing? If so please provide the results of this information. If not, do you have access to a laboratory or other methods including field testing to conduct testing for contaminants? TPH (Total Petroleum Hydrocarbons), PPM (Parts Per Million), etc. If so, please state.

Product Information: Do you know what products you are interested in and what amounts you wish to use? If so please state below. If not we will provide you with an estimate based upon the information you provide.
